INTERSCHOLASTIC SPORTS AT ATHLETIC FIELD TOMORROW

The annual interscholastic track meet and field sports will be held on the Blairmore athletic park tomorrow. Teachers and pupils of Bellevue, Frank, Hillcrest and Blairmore will take part, Coleman not entering. According to the request of the school board, His Worship Mayor Farmer has declared Friday, October 2nd, a half holiday.

"IRON MAN" COMING

L. W. Ayres is coming to Cole's theatre on Monday, Tuesday and Wednesday next in "Iron Man," a powerful love story of the prize ring from the novel by M. R. Barnett, a book-of-the-month-club issue. It was hailed by critics as an even more powerful and true-to-life story than "Little Caesar," which, both as a book and as a motion picture broke both records. Incidentally, Francis Edwards Farquhar, who wrote the screen play and dialogue of "Little Caesar," also wrote the screen play and dialogue of "Iron Man."

"Iron Man" stars Lew Ayres, the youth who made such a sensation in "All Quiet on the Western Front," in the role of a lightweight fighter who through the clever handling of his manager, played by Robert Aronson, eventually wins the lightweight crown. His wife, the role being taken by Jean Harlow of "Hell Angels" fame, then steps into the picture, with disastrous results.

"Iron Man" is a story of strength and power, with a true conclusion. It carries a strong and virile man's love story, as portrayed against a woman's peridy.

Ted Browning, who directed many of the late Lon Chaney's successes, directed "Iron Man." Browning also recently directed "Friday," which broke box office records. John Miljan, Edith Dillon, Mike Donah, Mary Doran and many others are in the cast of this production. Don't fail to see "Iron Man."

BLAIRMORE PUBLIC LIBRARY

Books placed on the shelves this week are:

"The Seven Darlings," by Gouverneur Morris; "Klondike Kid's Revenge," by Goodchild; "The Gillespie Salside Mystery," by Leonard K. Gribble; "M. is for Mary," by Sybil Owsley; "Penith in the City," by R. G. Wodehouse; "The Double D's," by Mrs. Frank Lee; "The Stones of Venice," volumes 1, 2 and 3.

The library hours are: Tuesdays, Thursdays and Saturdays from 7 to 9 p.m. The annual fee is \$1.00 for residents in town and \$2.00 for non-residents.

We are indebted to Mr. Greig for donating the following books: "The Stones of Venice," volumes 1, 2 and 3; "The Seven Lamps of Architecture," by Ruskin; "Unrest," by Warwick Deeping.

NOVA SCOTIA MINERS - PROTEST THIRTY-CENT PAY

Sydney, Nova Scotia, Sept. 19.—Trouble was brewing in the coal camps of Nova Scotia as the anti-registration movement started by Caledonia and Victory locals went forward. The miners objected to accepting thirty cents an hour on government road work for relief of unemployment, and indications were that nearly all the 12,000 men in District 26 favored the movement against signing up for this figure. At this rate the men would get \$2.40 a day, but they declared they could not make ends meet on less than \$3.40, the minimum labor rate around the collieries.

We were watching an Italian citizen making a speech a few days ago. Honestly, he had every word at his finger tips.

ODDFELLOWS ENTERTAIN CALGARY VISITORS

That interest in Oddfellowship is not by any means waning, but that rather the order today can look forward with a new feeling of optimism was clearly demonstrated through the visit here on Saturday of upwards of fifty prominent representatives from Calgary and other points in the province, who were greeted by the largest local representation ever assembled.

Upon arrival, the visitors were tendered a banquet at the Cosmopolitan hotel, where tables had been set for a party of forty. Following the banquet, all repaired to the lodge hall, where an address of welcome was delivered by His Worship Mayor J. H. Farmer.

J. H. Farmer, responded to by Grand Master Christie. Prominent among the visitors were: D. P. Christie, of Calgary, grand master; J. B. Allison, of Granum, deputy grand master; E. G. McPherson, of Vulcan, grand warden; George W. Henderson, of Calgary, grand treasurer and past grand master; Joe Wright, of Calgary, grand marshal; E. Foster-Brown, of Macleod, past grand master, and Howard Nixon, of Nanton, grand junior warden of the Grand Encampment of Alberta.

A closed meeting of those assembled was called to order at 7.30 p.m. when the grand master and his wife paid an official visit. A degree team was chosen from among the visitors and the Degree of Friendship was exemplified in a most capable manner. Following which the session closed and the Robekahs were received. Dancing was indulged in till midnight, when tables were spread and a bounteous luncheon partaken of. J. Robinson, district deputy, presided, and called upon the grand master, who in a very pleasing and fitting manner addressed the gathering. Other speakers included: J. B. Allison, E. G. McPherson, G. W. Henderson, E. H. Bunney, "Happy" H. Day, Mrs. Phayden and Mrs. M. Nab, for the visitors, and a number of representatives of Pass lodges.

On Sunday morning, the visitors were attracted to different points, some to the golf course, tennis courts and mountain trails, others to the Frank Slide, Cross' Nest Lake and other scenic centres, the return trip to Calgary being started about 1.0. Such a move on the part of the provincial heads of the order and members from the larger centres can do much towards instilling greater interest in fraternalism in smaller districts, and it is sincerely hoped that the practice of paying periodical visits will be continued.

TWO COUPLES WED IN FOUR MINUTES ON B.Y. LINE

Probably a new world's record for hasty marriages was created last week on the Hudson Bay railway at Mile 214, when Archdeacon Faries of the Anglican church, passing through on the Canadian National way freight, performed a double wedding in slightly less than four minutes. The two couples arranged by wire that everything would be set for the happy event during the short stop the train would make. As soon as the engine chugged into the station the archdeacon rushed from the train and shot the question to the two pairs of machine-gun fashion.

There is no time for hesitating in a wedding service on the Bay line, because there may not be another train, or priest along the line for another three months.

One of the Fabro boys, of Kimberley, had a narrow escape from death on Monday morning when his car plunged over an eight-foot fall through a pile of old railroad ties and stumps near Morrissey. He escaped with a scratched nose and damaged car bumper.

"One Heavenly Night"

Coming Coming

WILL ROGERS in "YOUNG AS YOU FEEL" All "TRANSATLANTIC"

JOHN HERRIN, EX-M.P. IS OLDEST PIONEER

P.N.CHER CREEK, Sept. 28.—A capacity congregation packed the United church on Sunday evening, September 22, for the third annual pioneer service. Pioneers and their entire centre acate and others were seated at the sides. Senator W. A. Buchanan, of Lethbridge, was the special speaker. Old and pioneer hymns were used in the service. Music rendered by the choir included the anthem, "Lead Me, Lord," with Mrs. Yates. A. B. McMurdo led the choir and Miss Mae Allison presided at the organ.

In asking for the roll call, the pastor, Rev. N. W. Whitmore, stipulated that only those having been resident in the town or surrounding foothills and district for twenty-five years or more respond by standing. The response to the 25 years' residency was high and dwindled down at the 30 years call until there were 12 present who had been here for 11 years, six for 45 years; four had been here 47 years, three for 48 years, two for 49 years, and then on until only John Herrin, ex-M.P. and veteran R.N.W.M.P., was left standing, he having a

58-year record. Mr. Whitmore expressed pleasure at being able to extend the courtesy of his pulpit to Senator Buchanan, whom he had met in his home town of St. Thomas, Ont., some years ago and whose career cut west he had followed with interest.

Although being able to claim pioneer status, having come to Lethbridge in 1905, Mr. Buchanan said he had not experienced the adversity, obstacles and general vicissitudes met by the early pioneers. He spoke along lines of an outsider's opinion of the old-timers and the part they have played in building up Canada, their contributions as explorers and discoverers without which we should not have had the advancement in the west. The pioneer, the speaker said, came without knowledge as to whether the country was suitable to agricultural or other development, but they explored and founded a country that has drawn countless thousands who are profiting by their discoveries. Earlier discoverers came and found things and left again, but it was the pioneer settlers who followed after, who found the riches and possibilities and explored them.

James Ramsay, of Edmonton, ex-M.L.A., and former leader of the con-

GILLETT'S

Cleans SINKS

DRAINS and the
TOILET BOWL

■ Full strength for Sink Drains ■ Full strength for the toilet bowl ■ In solution for all general cleaning

GILLETT'S Lye "Eats Dirt"

Flake Lye

*Lye should never be dissolved in hot water.

USE full strength Gillett's Lye to keep all your drains clean and free-running.

A small quantity poured down your sinks and toilet bowl, each week, will rid them of all dirt accumulations and save you costly repair bills.

For all household cleaning, one tablespoonful of Gillett's Lye dissolved in a gallon of cold water provides a safe solution for washing floors, tiles, refrigerators, etc.

The new FREE Gillett's Lye booklet describes many other ways this handy product can help you with all your cleaning. Send for it.

WORLD HAPPENINGS
BRIEFLY TOLD

Twenty-two vessels, nearly all Diesel equipped, were launched in Japan in the first six months of this year.

Professor Edwin R. A. Seligman, internationally known economist of Columbia University, thinks the suspension of the gold standard by Great Britain will stimulate industry.

Miss H. D. Hobercker, for nine years leader of the Young Women's Christian Association in Nova Scotia, has been appointed national secretary of the Y.W.C.A. for Canada.

The memorial to those who lost their lives when the giant dirigible R-101 crashed in France last October has been unveiled above the graves of the victims in Cardington churchyard.

Estimating a wheat average for the province of 16½ bushels per acre, a general crop report issued by the Alberta Wheat Pool places the Edmonton district above all sections with an average of 28 bushels to the acre.

Further discouragement to British migration to the Dominion appeared in an announcement from the Overseas Settlement Department that the special \$50 passage rate for British settlers to Canada was withdrawn October 1.

Assurance that the Dominion Government would assume 50 per cent. of the total cost of unemployment relief work in Alberta, including labour and material, has been announced by Hon. G. L. McPherson, Provincial Minister of Public Works.

Sir Howard Grubb, noted authority on astronomical instruments and builder of them, died recently in Dublin. Sir Howard has sometimes been credited with the invention of the submarine periscope and he made many developments on it.

Stubble Should Be Burned

Method Has Proved Superior To Any Other Treatment.

When stubble has been burned off and the land again seeded, after a minimum amount of cultivation, the yields of grain have proven this method to be superior to any other stubble treatment, according to results obtained by the Dominion Experimental Farms over a number of years. Objections to the burning of stubble are loss of nitrogen, loss of moisture, and some loss of soil fertility; while supporting the practice are weed control, clean crop, and convenience.

Reasonable Return

"Yes sir, I spent \$5,000 on my daughter's education, and now she's gone and married a fellow with \$300 a year! What do you think of that?"

"Oh, well, it's six per cent. on your money, what?"

A machine has been invented to peel willow sticks that are to be used in weaving baskets and making furniture five times as fast as the work can be done by hand.

W. N. U. 1909

SUNDAY SCHOOL LESSON

OCTOBER 4

THE MACEDONIAN CALL

Golden Text: "Go ye therefore, and make disciples of all nations."—Matthew 28:19.

Lesson: Acts 15:36 to 16:15; Romans 15:18-21.

Devotional Reading: Hebrews 11:8, 10.

Explanations and Comments

The two Great Workers Separate. Acts 15:36-41.—"Come and let us go back and visit the brethren in every town where we have proclaimed the word of the Lord. Let us see how they are doing" (Moffatt's Version), said Paul to Barnabas, who had spent some time in Antioch of Syria after the return from the Council in Jerusalem. Barnabas was ready for any other missionary tour, but he wished to try Mark again, while Paul would not take a man with him who had deserted them in Pamphylia on their first tour. Unable to agree, the two apostles separated—Barnabas took Mark with him and sailed for Cyprus and here we part with great-hearted missionary, for there is no further record of his work. Paul chose Silas as his companion and they went by land through Syria and Cilicia, strengthening the churches on the way.

"The separation of Paul and Barnabas was highly conducive to the progress of the gospel. Each could now work with greater freedom. Barnabas would be delivered from a position in which he might from the increasing importance of Paul feel his own influence was diminishing; and Paul would feel more thoroughly independent. Besides, instead of one mission, there were two. Barnabas and Mark labouring in one quarter, and Paul and Silas in another, and thus double work would be performed."—Dial.

Timothy Chosen As a Companion. Acts 16:1-5.—Paul and Silas visited Derbe and Lystra, and in the latter city Paul chose Timothy, a young man of good reputation, to accompany them on their journey. As they travelled from town to town they delivered to the churches the resolutions passed at the Council in Jerusalem. Everywhere the churches were strengthened in the faith (i.e., faith in Christ, as over against the idea of the works of the law) and increased in numbers.

The Call To Europe. Acts 16:9-10.—Up to this time the mission of Troas, the Holy Spirit had exerted his influence by hindering, restraining. Then at Troas the chamber was set before Paul, he was called to make a new advance; in a vision at Troas he was shown a man standing, beseeching him, and saying, "Come over into Macedonia and help."

Paul's Aim In His Work. Romans 15:18-21.—From the moment when Ananias informed Paul that Christ counted him a chosen instrument to bear His name before the Gentiles, up until the hour when Paul addressed his letter to the Romans, he had visioned with increasing clearness that his task was "to make the Gentiles obedient to Christ." Christ had worked through him, he writes, through his words and deeds, through the power of signs and wonders, through the power of the Holy Spirit.

From Jerusalem and round about even unto Illyricum, on the west of Macedonia, he has bravely declared, "fully preached the gospel of Christ." This was Paul's glorifying, that he had met to its fullest extent the duty of his calling as the apostle to the Gentiles. He could point to his task and call it done, for time and circumstances had permitted.

His special aim had been not to build upon another's foundation, but to preach Christ, where he had not been named. In the words of Isaiah,

"They shall see, to whom no tidings of Him came, And they who have not heard shall understand."

Automatic Tire Inflator

Tire may always be kept full by a device being demonstrated by us at inventor at Berlin, Germany. The device consists of a small pump built into each hub. It goes into action automatically when the tire pressure falls below normal and stops when proper inflation is reached.

"Has your husband given up golf?" "Yes, all but the woods."

Text Books

In Schools

Few Changes Required By Departmental Regulations In Saskatchewan

Allegations that the Saskatchewan Department of Education has authorized radical changes in school text books involving needless expense to parents in these days of financial depression, are declared unfounded in a recent statement to the press, emanating from the Department. The statement asserts that the new curriculum recently adopted for public and high schools of the province, does not require the scrapping of old text books and the purchase of new. In fact, it is set forth that, pursuant to instructions from Premier J. T. M. Anderson, as Minister of Education, pupils having access to old school books formerly authorized by the department, are not required to purchase new ones.

The statement further shows that, far from causing additional expense to parents, the new curriculum actually calls for a smaller expenditure on books than ever before. Certain text books have been eliminated, thus making savings possible, while the only new books authorized are inexpensive.

In the public school grades, the only new book to be authorized was the Congdon Music Primer (price 25 cents), for use of grades three and four. This was necessitated by the addition of Music to the public school curriculum in all grades. On the other hand, Elementary Composition (price 50 cents), formerly a text book for grades five to eight, and Public School Grammar (35 cents), formerly an alternative text with English Grammar in grades six to eight, both have been dropped, as no text book is authorized in this subject. Further, the cost of the Canadian Speller was reduced, this year, from 40 cents to 30 cents.

With the exception of literature selections in English and foreign languages, the high school text books authorized for this year are almost identical with those of last year, according to the statement. Selections in supplementary reading have been changed throughout, in compliance with earnest requests from high school teachers. Literature selections in grades nine and twelve have been changed for the same reason, while a few changes have been made in Latin, French and German prose. It is the usual practice for departments of education to change the selections in English and foreign languages annually, but, the statement adds, no changes were made in Saskatchewan for 1930-31. The cost of literature and foreign language texts, it is pointed out, range from 15 to 50 cents. In grade twelve Biology, the former text book being out of print, it was replaced, necessarily, by the revised edition. However, pupils having access to the old text are not required to purchase the new book.

Free Distribution

Carrying the economies with regard to school text books further, the Department of Education has made arrangements with the Saskatchewan Teachers' Alliance for the collection of used text books, and their distribution, free of charge, amongst schools in the dried-out areas of the province.

Lovely Skin

Vegetable Pills Did What Creams Couldn't

"I find (writes Miss E. T. Chapman) that Carter's Little Liver Pills will do more to keep the complexion clear and the skin free from blemishes than all the face creams I have used. Dr. Carter's Little Liver Pills are no ordinary laxative. They are ALL WIGGERS' BLOOD PURIFIER, a valuable tonic action upon the liver. They end Constipation, Indigestion, Biliousness, Headaches, Stomach, All druggists. 25c and The red package."

For Eucharistic Conference

Cunard Steamship "Lancastria" Chartered For Special Trip To Dublin, Ireland

The Cunard "Lancastria" has been chartered by Thos. Cook & Son, famous world-wide travel organization, for a special trip to Dublin, Ireland, next June, for the great Eucharistic Congress which will attract thousands to Erist's Isle. Thos. Cook & Son, it may be recalled, were recently appointed by the Holy Father as the Official Travel Agent to the Holy See at Rome.

During the five days of the Eucharistic Congress the "Lancastria" will stay at Dublin to enable her passengers to make use of the ship as their hotel. This is an especially important feature in that it not only will make costs of a trip to the Congress cheaper, but also will make the trip more comfortable since every available hotel and boarding facility of the capital of the Irish Free State will be taxed to the utmost during that period.

The minimum round trip rates for the "Lancastria" cruise will be \$390, in Cabin Class and \$285 in Tourist Third Class.

Cunard agents throughout Canada and the United States are urged to book freely for the Lancastria Eucharistic Congress trip. They will be protected by Thos. Cook & Son on the regular steamship commission.

There is certain to be a large movement to Ireland for the Eucharistic Congress, since many of Irish birth or descent in Canada and the United States will take the splendid opportunity to attend this impressive demonstration of religious faith and at the same time see something of the new Ireland which is rising on the ashes of the old. Today the Irish Free State is classed as one of the very small number of nations in the entire world which have not suffered materially from the economic depression. Employment there is at a low ebb and steady progress is being made in the line of manufactured products of various types and the aggregate work of the country.

Recipes For This Week

(By Betty Barclay)

GOLDEN RINGS

Select large yellow cucumbers. Pare and cut them in slices one-half inch thick. Soak over night in salt water (one quart cup salt to one quart water). Drain and cook in clear water at twenty minutes. Drain again and add them to a pickling syrup made of the following ingredients:

- 2 pounds sugar.
- 1 pint vinegar.
- 1 pint water.
- 1 lemon, sliced thin.
- 1 tablespoon cinnamon.
- 1 teaspoon cloves.
- 1 teaspoon allspice.

Cook the cucumber until the rings are clear and the syrup thick. Seal in hot, clean jars.

LEMON CREAM FILLING

(Sufficient for 1 three-layer cake)

- 1 egg.
- 1 cup sugar.
- 4 tablespoons cornstarch.
- 1 cup water.
- ½ cup lemon juice.
- ½ teaspoon ground lemon rind.
- 1 tablespoon butter.

Beat egg, add sugar and cornstarch. Mix well. Add water, lemon juice and rind. Cook in double boiler 15 minutes, stirring frequently. Add butter. Cool before spreading on cake.

The forests of Canada are its second most important resource, exceeded in actual value only by farm products.

France will give \$2,340,000 credit annually to French manufacturers using fash of domestic origin.

The Thousand Islands of the St. Lawrence are rivalled by the 1,500 islands along the waterfront of Rio de Janeiro.

Through its system, western farmers were slowly being shifted away from an all-wheat crop, he said.

The Poor Man's Friend

Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

England's Speed Records

England's official speed records for air, land and water despite the unfortunate termination of the race at Detroit are as follows: Airplane—Squadron Leader A. H. Orlebar, 237.7 miles an hour, with a Super-marine Rolls-Royce S-6. Automobile—Malcolm Campbell, 246.066 miles an hour. Speedboat—Eyre Don, 110.223 miles an hour, with "Miss England II."

Historian says divorce was unknown among primitive peoples. When a man fell in love with his friend's wife he married the widow.

Railroads of Argentina are fighting private trucking companies by establishing parallel truck lines.

Customer: "Three of those apples you sent me were rotten—I am bringing them back." Storekeeper: "That's all right, madam—you needn't bring them back, your word is just as good as the apple's."—The Posing Show, London.

LOST 30 lbs. FAT
IN 3 MONTHS

AT THE AGE OF 40

"I was very stout and I have taken Kruschen Salts for 3 months, and have reduced from 212 lbs. to 182 lbs. (age 40). I am a hearty worker and have never felt any ill effects while I have been taking Kruschen Salts."—T. H.

That is an instance of Kruschen succeeding without assistance. But if any fat person will be satisfied with a moderate diet, and will take one half teaspoon of Kruschen Salts in a glass of hot water before breakfast every morning—they can lose fat in just the same way.

This is what Kruschen Salts does—it cleans out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape, and fills you with a vigor and tireless energy you get the needful exercise. As a result, instead of planting yourself in an easy chair every free moment, and letting flabby fat accumulate, you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition.

Danced On The DO-X

Germany Proves Great "Plane Good As Ocean Liner"

For the time being, her size satisfies our imagination. With a wing spread of 182 feet and a hull 151 feet long, twelve motors and two decks providing ample quarters for passengers and crew, it is possible for her to carry a pay load of from sixty to seventy passengers in addition to her crew of twelve. In one trial flight she cleared the towers and the final one of her resemblance to an ocean liner, it is reported that the passengers en route to New York held a dance on board ship after leaving Hampton Roads.

The DO-X is an experiment and its mishaps may be attributed to this fact. It is still to be seen whether either this 'plane' or others built like her can be regularly and profitably used in air transportation. In any event Germany has shown us what can be done with the dirigible in trans-Atlantic flying; she is now attempting to demonstrate the possibilities of giant airplanes.—New York Evening Post.

Champion Rabbit Catcher

Isaac Gough, of Gloucestershire, England, claims to be the champion rabbit catcher of Britain. He declared recently that he and his two sons had caught 52,343 rabbits between August and March. They have caught 1,500 in 10 days and 534 in one night. Mr. Gough makes so much money, from trapping that he pays income tax and is proud of it.

Persian Balm promotes daintiness, charm and beauty.

It is unrivalled in its magical effect on the skin. Swiftly absorbed by the tissues, it leaves never a vestige of stickiness. Delicately cool to the skin. Stimulating and invigorating. Softens and makes the hands beautifully white. Subtly fragrant. Imparts youth and loveliness to the complexion. Persian Balm is the inevitable choice of the woman who cares.

Purchase Junkers 'Plane

T. Siers, superintendent of maintenance for Canadian Airways (Western division), is now in Germany to take delivery of a new Junkers 'plane for his company. The aircraft, known as the JU-52 type, is designed as a commercial air freighter and will carry a load of 6,000 pounds at a speed of a hundred miles an hour.

The Thousand Islands of the St. Lawrence are rivalled by the 1,500 islands along the waterfront of Rio de Janeiro.

France will give \$2,340,000 credit annually to French manufacturers using fash of domestic origin.

Through its system, western farmers were slowly being shifted away from an all-wheat crop, he said.

HEADACHE

Nerves on edge. A head that throbs. You can't stop work, but you can stop the pain—in a hurry. Aspirin will do it every time. Take two or three tablets, a swallow of water, and you're soon comfortable. There's nothing half-way about the action of Aspirin. You will always get complete relief when you take these tablets.

These tablets should be in every shop, office, and home. Ready to relieve any sudden ache or pain, from a grumbling tooth to lumbago. Don't suffer with that neuralgia.

ASPIRIN

THE HOUSE OF DREAMS-COME-TRUE

— BY —
MARGARET FIEDLER
Author of
"The Splendid Folly," "The Hermit of Far Star,"
Hodder & Stoughton, Ltd., London.

CHAPTER I.—Continued.

"Staple? Is that the Brennan place?"

"God bless my soul, no! The Tormarins acquired it when they came pushing over to England with the Conqueror. I imagine Anne married twice, you know. Her first husband, Tormartin, led her a dog's life, and after his death she married Claude Brennan—son of a junior branch of the Brennans. Now she is a widow for the second time."

"And are there any children?"

"Two sons. The elder is the son of the first marriage and is the owner of Staple, of course. The younger one is the child of the second marriage. I believe that since Brennan's death they all three live very comfortably together at Staple—at least, they did ten years ago when I last heard from Anne. That was not long after Brennan died."

Jean wrinkled her brows.

"Rather a confusing household to

She Suffers So—Unnecessarily!

Nearly Nervous Prostration

DO you know her... this poor head-suching, her overworked? How many young women are working "off their nerve" because female weakness has robbed them of strength and health?

If they would only try Lydia E. Pinkham's Vegetable Compound, it strengthens by its tonic action... brings soothing, comforting relief. Get a bottle of the Liquid from your druggist today. Or try it in the new convenient tablet form.

Lydia E. Pinkham's
VEGETABLE COMPOUND

neurtitis, rheumatism, etc.; or lose any time because of colds or sore throat. Get some Aspirin and just follow those proven directions for instant relief.

Aspirin tablets cost very little, especially if you buy them by the bottle. Any doctor will tell you they are harmless. They don't hurt the heart. They don't upset the stomach. So take them as often as you have the least need of their quick comfort. Take enough for complete results. On sale at drug stores everywhere. Made in Canada.

be suddenly pitchforked into," she commented.

"But not dull!" submitted Peterson triumphantly. "And dullness is, after all, the biggest bugbear of existence." As if suddenly stabbed by the palpable pose of his own remark, the light died out of his face and he looked round the great dim hall with a restless, eager glance, as though trying to impress the picture of it on his memory.

"Beträfs—my 'House of Dreams-Come-True,'" he muttered to himself.

He had named it thus in those first glowing days when love had transfigured the grim old border castle turning it into a place of magic visions and consummated hopes. The whimsical name took its origin from a little song which Jacqueline had been wont to sing to him, a glorious voice investing the simple words with a passionate belief and triumph.

It's a strange road leads to the House of Dreams.

To the House of Dreams-Come-True.

Its hills are steep and its valleys deep. And salt with tears the Wayfarers weep.

The Wayfarers—I and you.

But there's sure a way to the House of Dreams.

To the House of Dreams-Come-True.

We shall find it yet, ere the sun has set.

If we face straight on, some fine, some wet.

Wayfarers—I and you."

Peterson's eyes rested curiously on his daughter's face. There was something mystic, almost visionary, in their quiet, absent gaze.

"One day, Jean," he said, "when you are the only man who matters, Beträfs shall be yours—the house where your dreams shall come true. It's a house of ghosts now—a dead house. But some day you and the man you love will make it live again."

CHAPTER II.

Madame De Varigny

Jean was standing looking out from the window of her room in the hotel at Montavan. In the distance, the great white peaks of the Alps strained upwards, piercing the mass of drifting cloud, whilst below lay a world sheeted in snow, the long reach of dazzling purity broken only where the pine-woods etched black trunks against the whiteness and the steeple gleam of a frozen lake showed like a broad blade drawn from a white velvet scabbard.

It had been part of Peterson's expressed programme that, before going their separate ways, he and Jean should make a brief stay at Montavan, there to await Lady Anne Brennan's answer to his letter. Jean had divined in this determination an excuse, covering his need to take farewell of that grave on the lonely mountain-side before he set out on the solitary journey which could not fail to hold poignant memories of other, former wanderings—wanderings invested with the exquisite joy of sharing each adventure with a beloved fellow-wayfarer.

Instinctively, though Jean had recognized the desire at the back of

Glen's decision to stop at Montavan, she was scrupulously careful not to let him guess her recognition. She took her cue from his own demeanour, which was outwardly that of a man merely travelling for pleasure, and she listened with a grim sense of amusement when poor Monsieur Vautrinot, the Maitre d'Hotel, recognizing Peterson as a former client, sympathetically recalled the circumstances of his previous visit and was roundly snubbed for his pains.

To Jean the loss of her mother had meant far less than it would have done to a girl in more commonplace circumstances. It was true that Jacqueline had shown herself all that was kindhearted and generous in her genuine wish to compass the girl's happiness, and that Jean had been frankly fond of her and attracted to her, but in no sense of the words had there been any intimation of a maternal or filial relationship. "Of course I know I'm a quite superfluous third at Beträfs, but all the same, you two really do make the most perfect host and hostess, and you try awfully hard not to let me feel dropped."

But, despite the fact that Jacqueline had represented little more to her daughter than a brilliant and delightful personality with whom circumstances happened to have brought her into contact, Jean was conscious of a sudden thrill of pain as her glance travelled across the wide stretches of snow and came at last to rest on the shoulder of a hill. She was moved by an immense consciousness of loss—not just the mere sense of bereavement which the circumstances would naturally have engendered, but something more absolute—a sense of all the exquisite maternal element which she had missed in the woman who was dead.

And then came recognition of the uselessness of such regret. Nothing could have made Jacqueline other than she was—one of the world's great lovers. Mated to the man she loved, she asked nothing more of Nature, nor had she herself anything more to give. And the same reasoning, though perhaps in a less degree, could be applied to Peterson's own attitude of detachment towards his daughter; although Jean was intuitively aware that she had come to mean much more to him since her mother's death, even though it might be, perhaps, only because she represented a tangible link with his past happiness.

Thrusting aside the oppression of thought conjured up by her glimpses of that quiet Gable's Acre, set high up among the hills, she turned abruptly downwards to the hotel vestibule.

Here she discovered that Peterson had been claimed by some acquaintance. The encounter was obviously not of his own choosing, for, to Jean's experienced eye, his face bore the slightly reticent expression common to it when circumstances had momentarily got the better of him.

His companions were a somewhat elaborate little Frenchman of fifty or thereabouts, with an unmistakable air of breeding about him, and a stately-looking woman some fifteen years younger, whose warm brunette colouring and swift, mobile gesture proclaimed her of Latin blood. They were conversing in French.

"A! La voici qui vient!" Peterson turned as Jean approached, his quick exclamation tinged with relief. Still in French, which both he and Jean spoke as fluently and with as little accent as English, he continued rapidly: "Jean, let me present you to Madame la Comtesse de Varigny."

The girl found herself looking straight into a pair of eyes of that peculiarly opaque, dense brown common to Southern races. They were heavily fringed with long black lashes, giving them a scintillatingly soft and disarming expression, yet Jean was vaguely conscious that their real expression held something secret and implacable, almost repellent, an impression strengthened by the virile, strongly-marked black brows that lay so close above them.

For the rest, Madame de Varigny was undeniably a beautiful woman, her blue-black, rather coarse hair

CORNS

Lift off - No Pain!

QUICK RELIEF

Just a drop or two of Putnam's on any sore corn and out comes all the pain. The corn shrivels up and drops off. No scar, no pain, no pinching from tight shoes. You can dance or walk in comfort. Use only Putnam's Corn Extractor. Satisfaction guaranteed. Sold by druggists everywhere.

PUTNAM'S

framing an oval face, extraordinarily attractive in contour, with somewhat high cheek bones and a clever, flexible mouth.

Jean's first instinctive feeling was one of distaste. In spite of her knowledge that Varigny was one of the oldest names in France, the Countess struck her as partaking a little of the adventures—of the type of woman of no particular birth who has climbed by her wits—and she wondered what position she had occupied prior to her marriage.

She was sharply recalled from her thoughts to find that Madame de Varigny was introducing the "little middle-aged Frenchman to her as her husband, and immediately she spoke Jean felt her suspicious melting away beneath the warm, caressing cadences of an unusually beautiful voice. Such a voice was a straight passport to the heart, and Jean seemed to catch even the prosaic little Count in an almost romantic atmosphere of tender charm, an effect which he speedily dispelled by giving a Jean a full, true, and particular, account of the various pulmonary symptoms which annually induced him to seek the high, dry air of Montavan.

(To Be Continued.)

Plenty Of Money

Savings Bank Deposits Continue To Mount In Face Of Depression.

The total of Canadian savings bank deposits in July, 1931, was \$49,000,000 higher than in July, 1930.

The total in savings deposits in July of this year was nearing a billion and a half, or approximately \$1,451,000,000.

This is a large amount of money and it is rather a conflicting situation that it should be growing at a time when the country is obviously "hard up."

Several things may account for the increase. In the first place a great many persons with a little money to spare are now putting it into the banks instead of into the stock market. They are not so keen on the stock market as they were two years ago—probably the result of experience.

Hard times also encourage saving on the part of those who have jobs. In the first place in normal times they are attempting to get something ahead because they feel that their jobs are not secure.

Furthermore, the opportunities for investing money in smaller developments of spending to find a little more Trade is in such a condition that the chances of any new enterprise succeeding in rather remote.

There is some evidence available that a policy of fear has something to do with the falling off in buying at this time. If workers felt sure of keeping their jobs they would be much freer in their buying—Leader-Post, Regina.

THE RHYMING OPTIMIST

By Aline Michaels

THE NAME OF LOVE

Men have taken the name of love in vain.

As a moon-like glow that can wax and wane;

They have lost the knowledge that love must be

Unchanged, through time and eternity. Though life is merciful, kind and pure, As quick in forgiveness as strong to endure,

They have bargained for terms and striven to prove The right to reason and barter in love.

But love through the ages is still the same, Not the flower of a day or a shining name, For when love the door of a life walks through That life in an instant is shaped anew;

The things that were sordid and mean depart As a glamour glows in the happy heart;

Ah, love means pity and power and pain, And it enters into no life in vain!

Planes Carry Heavy Loads

The whirr of big airplanes carrying three ton loads will be heard across the prairies in the future, according to a bulletin issued by the Canadian Pacific Railway. The new Junkers "planes will travel at 100 miles per hour. T. Biers, superintendent of maintenance for the Canadian Airways, western division, is in Germany taking delivery of the ships. They are known as JU-52 type designed for fast freight service.

Light enough to supply the entire United States continuously for 176 years could be produced from the coal burned in the country in a year.

ENO'S FRUIT SALT

Mothers! Don't Risk Their Health With Violent Purgatives

Constipation is one of children's greatest enemies. Unless the intestinal system is kept clear and clean ill health is almost sure to follow.

But severe acting laxatives are dangerous. The bodily system of child or adult is not meant to withstand the unnatural, forcing action caused by ordinary, cheap cathartics.

ENO'S "Fruit Salt" in a glass of water, every morning is the safest, surest and most pleasant way to inner cleanliness and perfect health.

Bright Future For Air Service

Canada Will Be Important Link In Air Route Between Europe and Orient

Canada as the all-important link between Europe on the east and the Orient on the west, was assured of a bright future in the air if the Dominion and Provincial Governments, as well as the citizens helped to develop aviation. Major-General J. H. MacBrien, commissioner of the Royal Canadian Mounted Police and head of the Aviation League of Canada, told members of the Canadian Club at Victoria.

Recent figures by the Lindberghs and German aviators who had blazed new trails between the United States and Asia and Europe respectively, had shown the importance of having routes through the Dominion, he said.

He said that a two-day air service between Winnipeg and England was feasible, and traced other routes of particular value to the commercial world.

Deaths From Tuberculosis

High Mortality Among Industrial Employees In Quebec, Nova Scotia and New Brunswick

Canada's tuberculosis death rate is much higher than that for the United States, and this discrepancy is due almost entirely to the high mortality among industrial employees in the provinces of Quebec, Nova Scotia and New Brunswick, according to a detailed study of the situation made public by Louis, J. Dublin, Ph.D., at the sessions of the American Public Health Association held in Montreal.

Mr. Dublin is the statistician of the Metropolitan Life Insurance Company, New York.

The rates quoted by him show that in 1930 tuberculosis took 59 lives from every 100,000 whites living in the United States. In Canada the death rate was 97.3 per 100,000.

Little Helps For This Week

"The Lord is my shepherd; therefore I can lack nothing."—Psalmist.

So whether on the hilltops high and fair I dwell, or in the sunless valleys where The shadows lie, what matter? He is there.

And more than this: where'er the pathway lead, He gives to me no helpless, broken need. But His own hand, sufficient for my need.

So where He leads me I can safely go, And in the wisdom hereafter I shall know Why in His wisdom He hath led me so.

—Henry H. Barry.

He is a strict but tender Master; and on the way which He leads us are not only crosses and thorns, but light, and love, and sympathy, and peace, and at the end—heaven.—M. K. Vincent.

Idle Money Of No Benefit

If Put Into Circulation Would Help End Depression

A lot of twaddle has been expressed by the so-called economic experts who have talked of everything under high heaven as the cause of depression. The fact of the matter is, the average newspaper is telling the people more directly what is wrong than any other agency, as per example in the Ottawa Journal: "An unemployed dollar is only worth the paper it is printed on. It is as useless and as unproductive as an unemployed man. And only when all of our people get a firm understanding of this, only when those of us who have a little money, or a lot of it, start putting it into circulation, will prosperity start coming back. It certainly won't come back as long as money lies idle in the banks."

the old country for Christmas

YOU can go home for Christmas NOW, even if the money you have set aside is less than you thought necessary. Fares on the luxurious Canadian Pacific Steamships are specially reduced, yet the comfort, service and cuisine is the same as before. Living costs are lower here than they have been for years. You can go now for much less money.

Ships sail regularly and frequently each week. Last-minute cancellations to get you to the Old Country for Christmas are made.

AN EXCHANGE'S VIEWPOINT

The folks who have held off buying must soon of necessity take the strings off their purses and buy. The merchants who have been buying from hand to mouth and working off their surplus stock will then be forced to replenish their empty shelves. That means in turn that the factories must work longer hours and employment be given to more men. These men in turn will furnish more buying power—and the wheels of commerce will again begin to hum the same old glad tune. Hard times may be something more than a frame of mind, but getting people into the buying frame of mind helps a lot to drive hard times away.

CANADA'S WHEAT CROP

The 1931 wheat crop of Canada is officially estimated at 271,400,000 bushels, of which 246,400,000 bushels will come from the three prairie provinces, Manitoba, Saskatchewan and Alberta, according to figures received by the Agricultural Department of the Canadian National Railways at Winnipeg. This year's crop is 129,472,000 bushels below that of last year. The largest production of wheat in 1931 is credited to the province of Alberta, with 119,100,000 bushels, followed by Saskatchewan with 101,200,000 bushels and Manitoba with 20,000,000.

Production of other grains is also less in Canada this year than in several previous years.

LO, THE POOR EDITOR

We are seriously contemplating the organization of a society to be known as "The Society for the Prevention of Cruelty to Editors." The objects of this society will be to regulate the demands made on the various chiefs of the clan, particularly those who sit in small-town newspaper offices.

Every week deputations wait on the town editor asking for advance publicity for some enterprise that may or may not be of a community nature. It is generally assumed that the event is of supreme importance and the biggest news story of the week. Following this deputation, a lone individual comes along and assumes that the man who has already spent thirty minutes writing up some tatty, will purchase at least two reserved seats so that he can attend the show with a companion.

And some editors fall for it. Naturally it is assumed that the editor will write not less than one column on the performance in which glowing phrases will pronounce it as being the most outstanding event in the history of the town and in which due credit will be given to all concerned—except the guy who wrote the story, who usually remains anonymous.

And, of course, everybody thinks the scribe is tickled up the back, that he just had one round of pleasure taking in the concerts, meetings, movie shows, services, what drives, dances and other nocturnal splendours. Why should he not pay for the entertainment?

We are taking the chance of being labelled stingy, mean, tightfisted, selfish, ornery good-for-nothings with no community spirit, when we say that our attendance at such festivals, concerts, meetings, church socials, sports and other local activities, is work—and we don't usually pay to go to work—Armstrong, B.C., Advertiser.

The 'in debt' isn't sounded. It's merely put in to provide the sting.

A SOVIET INCONSISTENCY

Observers note the disappearance of the heretofore consistent elements which once so characteristically marked the new Russian scheme. The misty vision of a proletarian paradise in which every man should receive a uniform reward for the performance of his daily stint of work has dissolved in the clear light of harsh reality. Stalin and the select group of the inner council have been forced into one capitulation after another until there has been evolved at last an undisguised old-fashioned tyranny after the Neronian pattern. The olive branch is extended to the intellectual of the old regime. Stalin has discovered that a manual aristocracy is not entirely the desideratum once fancied. Identity of reward for all forms of labor has been abandoned. The Soviet has discovered that the old capitalistic method of unequal rewards for different kinds of labor, and of unequal rewards for good and indifferent performance, has its merits after all. Evidently indifferent to any stigma of inconsistency, the Soviet incorporates into its system precisely those elements of the older system which were one time so heartily and roundly denounced.

Indeed, was the Soviet acknowledgment ever at any time a genuine communist experiment? Historically the principal element in the theory of Communism was that all goods should be owned in common. So, at Crete in 1300 B.C. all at public tables and at all in public beds. Sparta later developed a literal Communism. It is interesting to notice that while Sparta left the world nothing but a name which serves as a synonym for harsh uncompromising discipline, its neighbor, Athens, bequeathed to succeeding generations a memory of a lustrous glow of art and letters.

The Christians at Jerusalem owned all their goods in common. But the resemblance between the commonwealth of the earliest Christians and economic Communism is of the most superficial kind. Their union was voluntary. The Acts of the Apostles clearly indicate that the offering of Ananias and Sapphira was voluntary. Never at any time did they deny the validity and the excellence of private property. The situation was simply that in the conditions of the time this method was the one best adapted for material and spiritual self-preservation.

But was Russia ever a true Communist state, even after the harsh model of Crete and Sparta? It is hard to perceive how an affirmative answer is possible. Far from owning goods in common the proletarian may not even select his employment.

One time the Soviet dangled before the eyes of the people alluring promises of freedom. The older tyranny can't be conformed; but neither can the younger which has taken its place. From the tragedy in the cellar at Ekaterinburg until the present the Soviet record is a train of broken promises. The guarantee of freedom has not been kept. The "secret police" of the czar were less feared than the Soviet's O.G.P.U. A great nation is being dragged into atheism.—The Western Catholic.

A MAN'S PRAYER

Let me live, O Mighty Master,
Such a life as men should know.
Tasting triumph and disaster,
Joy—and not too much of woe;
Let me run the gamut over,
Let me fight and love and laugh,
And when I'm beneath the clover
Let this be my epitaph:

Here lies one who took his chances
In life's busy world of men;
Battled fate and circumstances,
Fought and fell, and fought again!
Won sometimes, but did not cowering,
Lost sometimes, but didn't wail,
Took his beating, but kept going,
Never let his courage fail.

A butcher was recently locked up in his refrigerator by bandits. When released by the police, he was the coolest man in the room.

BACK TO EARTH

The current era of economic dislocations is not without its compensations. With the enforced holiday for millions from the large-scale activities of a humming economic period, more and more of the habits and enterprises of a romantic past are being recalled.

In the grain regions the grist mill once more is grinding wheat into flour. The farmer who but yesterday carried his bushels to the nearest railroad to be transported with millions of other bushels to the grain elevators of Chicago now brings it in wagon, in car, or in bags slung over the back of a horse, to the nearest grist mill. Quiet, tumble-down wheels long sunk in reminiscence churn the water and turn the burrs again, and small localities with their intimate habits are revived.

In the far west partially demolished mines are being reopened. The fascination of gold hidden in the earth is exerting its never unbroken influence. More significant and popular than large-scale mining is the return of the picturesque prospector and placer miner. It is no quiescent sight today to see the prospector, his pans and pick lashed to the side of a burro, leaving Sacramento. Recently it was estimated that more than 2,000 placer miners were at work afflicting the region of the Marshall River, unmolested for decades, for "yellow dirt."

Into the forests of Canada thousands of factory hands go. Back to the Carolina farms another truck takes place. Men in large numbers are renewing their intimacy with earth with all the colorful, vigorous occupations which it provides.

With the temporary derangement of the industrial machine, nature is proving as of old capable of sustaining existence and in some cases bestowing riches. As artificial credit falters, earth proves its solvency and lavishes upon men a surplus of food which they may use for sustenance or for barter.

From the position of a consumer several times removed from direct productivity, from the role of being dependent upon the producer, wholesaler, distributor, and retailer, men have gone direct to the soil, tapped it with the pick and furrowed it with the plow and found that the credit of earth is not frozen or loaned out, but responds to every investment of toil.

The return to earth, literally and figuratively, has given human living a tincture of color inherent in manual labor and in nature, and has furnished a reminder that when our man-built economic structure becomes deranged, mankind still has resources that are profoundly rational and dependable.—Christian Science Monitor.

HILLCREST HAPPENINGS

Hillcrest Collieries Limited have informed their employees that they are willing to renew the present agreement, which expires the 31st of October, on the same conditions and terms.

The stork visited Hillcrest last Sunday morning, leaving twin daughters at the home of Mr. and Mrs. George Fry.

Miss Elsie Bamborough returned home Saturday from Calgary, where she has been attending the Garbutt Business College.

Mr. and Mrs. James Gordon, junior, accompanied by James Leigh, motored to Cranbrook and Fernie last week.

Mrs. A. Cassagrande underwent an operation in the local hospital last week.

Jim Foster, who suffered a serious accident in the mine last Friday evening, is making good progress towards recovery.

Great interest is being taken this year in the inter-scholastic sports to be held in Blairmore on Friday by both teachers and children. Training is in full swing.

A. Mark attended a meeting of the district B.Y. Scouts committee, held in Michel on Monday.

Dr. J. MacKay left for Edmonton on Tuesday last.

COWLEY HAPPENINGS

The Ladies' Aid netted a neat sum when they served luncheon in the United church on School fair day.

Mr. and Mrs. Lawrence Robertson are receiving congratulations upon the birth of a daughter.

A dance was held on the night of September the 25th in aid of the Cowley School Fair fund. Mrs. Altermatt's orchestra was in attendance.

The Cowley School Fair, which was held on September 25th, was largely attended and was one of the best ever held here. Most of all the classes were well represented and in many cases the entries were keenly contested. The list of prize awards will appear in next week's issue of The Enterprise, being unavoidably crowded out this week.

CORBIN HAPPENINGS

Mrs. Coote, of Edmonton, who has been visiting her daughter, Mrs. A. Williams, returned home on Saturday last.

Mr. and Mrs. Frank Coates spent Saturday in Lethbridge.

Mrs. N. Warabec, accompanied by Master Billy Warabec, left for Calgary on Friday, where Billy is to enter as a student at the technical institute.

Mrs. W. Porter arrived in town from Vancouver, for an extended visit.

A very successful dance, as held in the Club hall on Friday night, under auspices of the girls' softball club.

Michael and Corbin footballers met at Fernie on Sunday afternoon and fought it out to a 2-1 finish in favor of Michel in the Cup series.

Mr. and Mrs. Lionel V. M. Peel had as their guests over the week end Mr. and Mrs. L. M. Peel, of Lundbreck.

The first Guild meeting of the season was held at the home of Mrs. W. Almond on Thursday night last.

Nova Scotia's unemployed are re-joining over the announcement of the provincial and federal governments that \$500,000 is to be spent on the completion of that province's portion of the trans-Canada highway, and are glad to accept thirty cents an hour. No power shovels, however, are to be employed. Work will be provided for one thousand men.

The little town of Truro, Nova Scotia, was recently subjected to some rather wide-spread unfavorable publicity in the United States as the result of papers stating that earthquakes, tidal waves and electrical storms had caused damage exceeding one million dollars.

HIGWAY HOUSECLEANING

Retaining natural highway attractiveness is a government problem in many provinces, and progress of a definite nature is reported from some. For instance, the campaign instituted by the Ontario department of highways to protect the scenic beauties of the province from too many advertising signs is bearing fruit and it is the intention of the department to carry on this endeavor until the majority of these signs are removed, according to R. M. Smith, deputy minister of highways. Advertising companies were informed some time ago that the number of placards, signs and other methods of advertising trade articles would have to be considerably reduced. In many instances department officials themselves removed the offending signs, after informing the advertising company concerned.

FRESH SCHOOL HOWLERS

Monte Carlo is the playground of Europe, where they gamble.

Doctors say that fatal diseases are the worst.

St. Paul looked at the lame man so fiercely that he began to walk.

Essay extract: Wine is a mocker. Strong drink is raging. Hold fast that which is good.

A doll is a grown up person. One of the chief uses of water is to save people from drowning.

Livingstone was found missing for several years.

Cossacks are things which ladies wear.

Africa is much hotter than some countries because it is abroad.

Lady Jane Gray sat on the throne for a few days.

Queen Victoria was the longest queen on the throne.

What did Jehoshaphat do for his country? He cut himself in half and threw himself on the altar.

Job had one trouble after another. He lost all his cattle, and all his children, and then he had to go and live alone with his wife in the desert.

In what order do the Gospels come? One after the other.

What did the Virgins do about their empty lamps? Fill them up with carbide.

Zanzibar is noted for its monkeys. The British Governor lives there.

What difficulties confronted de Lesseps in making the Panama Canal? They were afraid if they cut through the Isthmus of Panama, South America would float away.

Our hands and face ought to be rubbed with a rough towel and a bath every week.

Elijah went up to heaven in a fiery chariot.

Six days shall thy neighbors do all thy work.

John the Baptist dressed in camels' fur and wore a girdle of loins about his neck.

GLOTFIFYING GANGDOM

Under the heading "A Simple Country Doctor," a syndicated page article which appeared recently in the Calgary Herald, among, we presume, other newspapers, contained a sympathetic account of the career of Senator McDougald, who was played up in the usual "Great Captains of Industry" manner. Senator McDougald was represented as a victim of the rival financial racketeers in Montreal.

Glorification of gangsters who prey upon the great cities of the United States has been justly deprecated, but it is doubtful whether the Al Capone and the "Legs" Diamonds of the continent can cause such permanent injury to their communities as is caused by the non-violent racketeering of which the Baughmans power scandal is a striking instance. When the public domain is alienated on a colossal scale, not only the present but future generations must pay the price.—The U.F.A.

A FORMER M.P.'S DARTS

(By Col. Hugh Clark in High River Times)

A man returning from a two weeks' fishing trip reports that each fish he caught cost him \$112.—News item. You sit and sit and wait and wait, And yet the fish avoid your bait, And you don't learn the cause until You've run up such a great big bill, That by the time you've had your wish

They've boosted up the price of fish. You saved some money when you bought

The fish you said that you had caught. A scientist declares there is alcohol in every person's brain, even in the brains of total abstainers, which accounts for some of them talking so much about it. They had it in mind all the time.

You can't find a golfer who is a Red, says a sporting editor. No. He has something else to talk about.

Gasoline and liquor don't mix. The road hog especially should avoid the blind pig.

It takes a Frenchman to say it with caustic when he feels like it. Trevelyan tells of Lord Minto asking what Talleyrand thought of the dispute then raging between Metetrich and a certain cardinal. Talleyrand took the cardinal's side. "The cardinal may make mistakes," he said, "but he never lies; Metetrich always lies and never makes mistakes."

MILLIONS IN RUSSIA ARE READY FOR WAR

Calgary, Sept. 22.—Soviet Russia could put ten million men into the field of battle, if the estimates of the most reliable authorities are to be recognized, stated Dr. W. A. Lincoln, Monday evening before the young men's section of the board of trade. The speaker, a recent visitor to Russia, was addressing the group's first meeting of the season in the board of trade rooms.

Dr. Lincoln observed an armament movement in the countries neighboring Russia, including Poland and Finland. Sabres were being rattled in these countries, he continued, to discourage presumption on the part of Russia that they would come under control without a display of resistance.

Sources of arms in Russia include the standing army of about 500,000 men, the secret police whose strength was unknown, and a body similar to a home guard.

In answer to a member of the audience, Dr. Lincoln stated that labor was virtually conscripted in Russia. The government told a man where to go and what to do regardless of his tastes or selection in the matter.

Soviet officials, he pointed out, claimed that there was no unemployment in Russia, but it was impossible to ascertain the authenticity of this.

Laborers were worked four days a week under some plans. There was no observance of Sunday. It was claimed that they worked seven hours a day at most, but one street gang outside Dr. Lincoln's hotel, he said, were working at longer stretches than the seven-hour maximum.

SCIENTISTS TO FILM AURORA BOREALIS

Equipped with motion picture cameras possessing an exceptionally high rate of speed, and with films sensitive to all the colors of the spectrum, three explorers and scientists, representing the United States government, have arrived at Churchill, where they propose to film the Aurora Borealis, as a preliminary to the scientific investigations of Arctic atmosphere phenomena, which will be conducted next year by parties sent by all nations interested in Arctic exploration.

These combined investigations are to be made next year because that is the fifth anniversary of the establishment of the first meteorological station in the Arctic regions.

In charge of the party is Capt. Flavell M. Williams. His companions are A. Louie, assistant scientist and camera man, and Robert Marshall, color expert.

"DADDY LONG-LEGS"

Never before has the management of Cole's theatre assumed the responsibility of recommending any picture to satisfy 100 per cent of their patrons. However, "Daddy Long-Legs" is the most outstanding picture of the year and combines all the elements of successful entertainment to satisfy everyone. They highly recommend this offering and you'll enjoy seeing and hearing it.

The witchery of Janet Gaynor, the magnetism of Farmer Baxter, two of the screen's greatest favorites, combine in a love story that touches the heart. Millions have read the novel or seen the play, but to live the story completely, you must see the picture. It's a story of youth and its dreams, happiness and its tears, love and its triumphs. How a wistful girl created her ideal, and how a man of the world found a new role to play. A gay and wise and human drama.

Tonight and Friday and Saturday at Cole's theatre.

Sir Hall Caine, who during his life was regarded as one of the wealthiest of Great Britain's contemporary writers, and in fact wealthier than any Crown's Nest Pass correspondent to the daily press, left a personal estate of one million dollars, not including real estate holdings and value of his literary products. He boasted of having lived miles from a cemetery and paying thousands of dollars in taxes to help his community.

URGES LOCAL WAR TO RID CANADA OF INSECT PESTS

An appeal to residents of Blairmore to take up the cudgels of war against flies, mosquitoes and other insect pests, is made by Wade Morrow, Canadian director of the Rex Research Foundation, of Toronto, Ont., in a message to The Enterprise.

The Rex Research Foundation is an international organization devoted to warfare on harmful insects. Mr. Morrow stated that, since the severe outbreak in 1912, the public has been lax in keeping down these pests.

Warm, moist weather in many sections has aided a widespread increase of flies and mosquitoes. He urged that an extermination campaign be undertaken not alone for its immediate results but as a precaution against larvae deposits that will result in hordes of insects infesting this locality next year.

"Best authorities agree that there are about sixty species of mosquitoes in Canada which feed on the blood of human beings," said Mr. Morrow. "Although a majority of them are not annoying in the woodlands, they often cause considerable trouble indoors. In autumn they are generally found in cellars and basements."

"Too many of us are inclined to think of flies in terms of personal discomfort and annoyance. There are no other insects that spread so much disease—they are known to carry germs of thirty different ailments, many of which are very often fatal. The yearly toll of life from 'fly borne diseases' is more than the annual automobile fatalities. One fly can carry as many as 6,000,000 germs on its body from its common breeding place in the most filthy places."

"Now is the time to exterminate both these dangerous and deadly pests. The best and most efficient method is for every householder, storekeeper or farmer to spray homes, stores and barns twice daily with good insecticide. Swatting the fly or the use of flypapers in homes is inefficient, destroying only a few."

"Insects that spread disease, flies and mosquitoes present; it will keep other insects from entering for a period of time."

"Cool weather causes insects to hide in places inaccessible to extermination methods other than a mist spray. And fall flies are a greater menace than those in summer because of their propagation power. It is for the following season. Exterminate one this fall and you prevent millions from hatching in the spring."

WORLD'S LARGE LINERS**VISIT HALIFAX**

The historic port of Halifax is becoming popular with the army of holiday makers. At one time this summer five ocean liners, with an aggregate tonnage of 150,000 tons, lay at piers along the city waterfront. Of this group the ss. Leviathan of 69,000 tons register was visiting Halifax in accordance with a tourist schedule whereby a number of the world's largest liners are visiting the Nova Scotia capital this summer. Fifty-seven calls were to be made between June 20 and September 30, each vessel carrying from 200 to 1,500 excursionists. Included in this group of vessels participating in this special summer schedule, besides the Leviathan which makes but the one trip, are the following: Aquitania, 45,447 tons, 4 trips; Berengaria, 52,226 tons, 2 trips; Olympic, 46,459 tons, 3 trips; Mauretania, 30,696 tons, 4 trips; Majestic, 66,621 tons, 2 trips; Paris, 34,569 tons, 1 trip; Belgeland, 27,032 tons, 7 trips.

During August three organized tours arrived from France bringing 150 tourists for extended trips through eastern Canada and the United States.

Among the visitors to the Oddfellows' rally held on Saturday night last were Messrs. Ralph Jessup, of the Macleod Gazette, and Clyde Jessup, of the Nanton News. Their father, A. Z. Jessup, of Nanton, was at one time connected with the staff of The Enterprise.

SUBSURY FIRM AWARDED CONTRACT

The following article appeared in a recent issue of the Kapuskasing Tribune, an independent weekly newspaper published at Kapuskasing, Ontario, and cites a few facts that are pertinent and well worth considering.

"A few weeks ago, when it was announced that a Subsury firm had been awarded the contract for feeding an estimated 10,000 workers on the Northern Ontario sections of the trans-Canada highway for eighty cents per day, the Toronto Globe commented that the men should be well fed at that figure, because a number of Ontario public institutions were satisfactorily rationing their inmates for thirty-six cents per day. We are now considerably surprised by the appearance in that paper of a large advertisement by this same Subsury firm which merely confirms to the public the previous announcement of a catering contract. Assuming that this contract made by Hon. Mr. Finlayson is a provident one, why should it be necessary for the successful tendering firm to spend money advertising that it has got the contract? From another source, for the benefit of the caterers, we are informed that in six months the 10,000 highway workers will consume 39,600 pounds of cheese, 138,000 pounds carrots, 232,800 pounds cabbage, 130,200 dozen eggs, 196,200 pounds beans, 151,200 pounds onions, 2,400,000 pounds potatoes, 165,000 pounds turnips and 132,000 pounds sauerkraut. Butter, meat, and other essential commodities are not mentioned. We wonder what will be the emotions of the unemployed in the meantime—after waiting week after week for the highway work to be provided for them—when they read about the food they are going to get this winter. They cannot eat an ounce of it in the meantime, however hungry they may be. A certain cabinet minister is wont to declare that roadwork carried on in Northern Ontario in the winter time is a decidedly unprofitable; yet here is a plain case of the summer months being frittered away by official indecision, followed by week after week of organization before the necessitous workers are absorbed on the relief payroll. Chill weather is upon us, and hundreds of these un-nourished unemployed may easily fall prey to ailments when they tackle work in the highway camps. Canada has the opportunity of getting a national undertaking built now at an absolute minimum of cost, at the same time extending the suzer of work to thousands of unemployed. The way of fiscalism has bungled the start of it is not inspiring—Northern Observer, Sioux."

SAYS RUSSIA PLANS TO LAUNCH WAR IN TEN YEARS

New York, Sept. 26.—Ely Cuthbertson, an American bridge engineer, who spent five weeks on an eight thousand mile tour of Russia, returned recently on the Mauretania, and makes the statement that the Communists consider themselves at a state of war with the United States and the greater part of Europe. He said Russia was planning to launch its own "little world war" at the end of another ten years. He quoted a Russian informant, high up in Communist circles, as saying that the Reds already consider certain parts of the United States under occupation by Communist troops, that the advance Communist guard has occupied two or three blocks in every large city and the negro troops are being recruited in the south. He told of going to the head of the playing card syndicate in Russia and offering a scheme he promised would double the sale of playing cards. He claimed the man he approached was horrified at the idea, stating he had been put on the job for the express purpose of curtailing the sale of cards, because there were kings and queens in the decks.

Viscount Byng has resigned the commissionership of Scotland Yard.

PILLS IN THE GAS TANK

The Automotive Daily News of New York discusses the progress that is said to have been made in the matter of synthetic fuel. With the help of the American Petroleum Institute, the University of Texas is reported to be conducting experiments to determine the actual substances that go into the structure of petroleum. Once this is accomplished the chemist has a very good chance of producing these substances and amalgamating them in the laboratory. It is evident, however, that the chemists still have plenty of work ahead of them, as there are probably 500 individual substances in kerosene bases. The News concludes: "However, it is plain to see that the possibility is there. The beginning of the automotive industry as an important factor in transportation goes back only about twenty-five years. Those who live a similar price from today undoubtedly will see developments even more startling than those that have come to date. Perhaps in 1956 it will be a common place to hear the head of the household in New York say to his chauffeur: 'James, kindly drop two fuel pills in the gas tank. I am dining in San Francisco tonight and I don't want to stop for refuel on the way.'"

ALL-ELECTRIC TRAINS WOULD SAVE BRITAIN \$200,000,000 FOR FUEL

London, Sept. 22.—An all-electric railway train which will revolutionize rail transport is to be tested at the Newcastle works, of Sir W. G. Armstrong, Whitworth & Company.

The first three Diesel locomotives to be finished will be shipped to South America, but others will be tried on the railways of this country in October or November.

Engineers say the electric coaches represent a great advance on the ordinary type of electric train, and completely outdistance in speed and efficiency the best achievements of the steam engine. This Diesel electric train is an all-British invention and manufacture. The locomotive generates its own current through an engine driven by heavy oil. It requires no attention during the run and can be stopped while the train is in a station. There is even a "Rebooster" regulating the amount of fuel.

It is claimed that a saving of \$200,000,000 a year on the fuel bill of British railways could be effected through the general adoption of this system, and that it would be \$200,000,000 cheaper to use this type of engine than to electrify the whole of Britain's lines.

ARABELLE AND I

Arabelle, O Arabelle
Your tender smile, quivering lips
As sparkling dewdrops
On budding trees.
Elphie whispers in the breeze,
Rippling waters, you are these,
And more to me.
I love you, Arabelle.

A golden chain with pearls entwined,
Your lovely self to me will bind.
The pearls, your tears,
The golden gleams
Flashing visions of my dreams;
And as we wander
Thru life's shady dell;
Closer shall bind us,
My chain, Arabelle.
To draw you, enfold you,
Forever to hold you
To me, my Arabelle.
—Sybil Crosby, Hillcrest.

MAY EAT COAL YET

A prospect that coal may some day be used as food was envisioned at a recent meeting of the society of coal technology at Dortmund, Germany. The president, Wilhelm Glud, announced a method had been discovered for the synthetic production of albumin from coal, with possibility of ultimately obtaining human nourishment from coal and coke at an economic price.—Ex.

NEWFOUNDLAND INVITED TO JOIN ANGLICAN SYNOD.

The general synod of the church of England in Canada today extended an invitation to the diocese of Newfoundland to join its ranks. This decision was taken on the recommendation of a special committee headed by the senior metropolitan, Archbishop C. L. Worrell, of Nova Scotia, which was appointed in 1924 to explore the possibility of union.

The diocese of Newfoundland will be welcomed if it decides to send delegates to the general synod of 1934, elected according to its own rules and those of the general synod, it was indicated by today's resolution. Once before, at the general synod of 1890 in Winnipeg, Newfoundland was invited to join the Anglican group in Canada, but plans for union were not consummated.

WHAT HE FORGOT

(From the Central Georgia Magazine)
He brushed his teeth twice a day.
The doctor examined him twice a year.

He wore his rubbers when it rained.
He slept with the windows open at least eight hours every night.

He stuck to a diet with plenty of fresh vegetables.

He relinquished his tonsils and traded in several worn out glands.

He never smoked, drank or lost his temper.

He did his daily doses, besides taking plenty of out-door exercise.
He was all set to live to be 100.

The funeral will be held next Wednesday.

He is survived by eighteen specialists, four health institutions, six gymnasiums and numerous manufacturers of health foods and antiseptics.

He had forgotten about trains at grade crossings.

We are the ones to watch some day.
When the showdown comes at last;

We who have known the harder way.
That led through a rougher path;
We who have trained upon defeat,
Battered and beaten back;

As long as the heart is there to meet
The call for a new attack.

We've battled the head winds, fight for fight,
In an endless jam with Fate;

We've floundered on through the pit of night
Where the black gales howled their hate;

We've taken our beating standing up,
And now with the calling drums
We lift our heads, with another cup,
To the next hard scrap that comes.

Raw luck has lashed our softer robes
To a new red-hot romance;

It has burned the fat from around our souls
And given red blood a chance;

And when at last the tide has turned,
With blood-stained flags unfurled
We'll cut our way to the place we've earned,
Where the unwhipped rule the world.

—Grantland Rice

As a result of a strike called by a few of those employed on relief road work near Passburg last week, the entire equipment has been removed to another district. A demand was made for an increase of pay from 30 cents to 50 cents an hour, with transportation to and from work.

Mr. Newlywed—"This steak tastes queer."

Mrs. Newlywed—"I can't understand it, dear, I did burn it a little, but I rubbed vaseline on it right away!"

Small Son: "Grandpa, when are you going to play football?"

Grandpa: "Football? I can't play football."

Small Son: "But, dad said we'd get a new car as soon as you kicked off."

Madge—"I hope everyone will notice my new hat."

Marjorie—"Then you'd better lower your skirt about six inches."

Arthur Hadwell is still a patient in the Blairmore hospital, but is reported doing as well as can be expected.

A carload of various styles of new Chryslers and Plymouths was to arrive here this week end, consigned to C. Sartoris.

Today's world series baseball game resulted in a win for the Philadelphia Athletics against the St. Louis Cardinals of 6 to 2.

In her essay on "Parents," a little school girl wrote: "We get our parents at so late an age that it is impossible to change their habits."

Chief of Police Cameron, of Red Deer, has resigned to sign up with the Alberta Provincial Police. The chief came to Red Deer from Fernie.

We have heard of various parties bringing in big game, such as sheep, goat, bear, etc., but have not enjoyed any real evidence, much as we would appreciate it.

An Emporia, Kansas, druggist says he sold thirty-two miles of chewing gum last year, which should have been more than enough to take care of all the theatre seats.

The Columbus Club will hold a dance in the Columbus hall on the night of Monday, October 12th (Thanksgiving Day). The Arcadians will furnish music.

WANTED—A man of good standing and influence to take orders from the trade in Blairmore. Big commission. News Publishing Company, Limited, Truro, N.S.

The Blairmore Daily Enterprise in 1940 will likely contain this item: If all the aviators who have flown from Newfoundland to England were laid end to end they would reach that far.

Dr. John Denoon, son of the late Rev. A. H. Denoon, D.D., spent the summer on the Grand Banks of Newfoundland, where the men of the fishing fleet were under his medical care.

The Blairmore ball-tossers will give a grand dance in the Moose hall on the night of Friday, October 9th. The announcements state that the Arcadians' orchestra will be in the field.

P. Colombo, proprietor of the People's Bakery, has this week installed one of the most modern bread mixing machines, with capacity for 200 pounds of flour to a batch. The machine will be electrically operated.

We are asked to announce that the Bellevue United church choir are holding a tea and sale of home cooking and candy in the church parlor on Saturday, October 10th, from 2:30 to 5:30 p.m. Everybody welcome.

A most attractive improvement has been effected to the display windows of Trono's jewelry store, the work being done by Mr. Erikson. When completed, these windows will compare favorably with any to be seen in the cities.

A Scot who was a bad sailor was crossing the channel. He went to the captain and asked him what he should do to prevent seasickness. "Have you got a sispeness?" asked the captain.

"Ay," replied Sandy. "Well, hold it between your teeth during the trip."

For nearly 40 years the leader in quality "GALATI" TEA

'Fresh from the gardens'

Meeting The Challenge

In these troublesome times, when economic conditions the world over are causing acute suffering, any line of reasoning that will tend to stiffen the morale, is surely welcome. Some comfort, perhaps, may be drawn from the fact that we in Canada are doubtless less affected than other countries, and if we can credit the utterances of many well-informed writers and public speakers, we shall be among the first of the nations to emerge from this depression. We are no doubt now paying the price of rather extravagant living, and the present is a very good time to take stock and to reconstruct our ideas in conformity with the fixed laws of economics. And we must consider not only material things, but also the matter of character and the true worth of the individual. The present is surely a testing time. Roy L. Smith, contributing a most helpful article in a recent issue of The Rotarian, says that while the financial conditions have upset our economic structure, the real values of life are unshaken and solid. We cannot do better than to quote his article in full, which is as follows:

"We have passed through a panic suffered from a crash on the stock market and are now more than half way through the depression, and I am still rich."

"It may be true that I have much less to live on than I had a year ago, but it is certainly true that I have just as much as ever to live for. The real values of life are unshaken and solid."

"The stock crash cost us much that we never had—paper profits which never got nearer our pockets than the financial pages of the daily papers. The market failed but nothing else did. Prices went down, but not one acre lost its fertility and all the electrons, protons and other waves went on working in their accustomed way."

"When the depression came I was compelled to take an invoice and soon discovered that I was still rich. All my capacity for the enjoyment of life was intact."

"The depression has not lowered the value of a single friendship. Neighbors still greet us in the same old, cordial way, business associates believe us and our sons hold us in the same respect. The wife's welcome at the close of the day has not depreciated in the least and our daughters continue to lavish their affection upon us with the same old extravagance."

"My faith in the goodness of the universe is unimpaired. By that faith I am emboldened as I face defeat and despair. The prayers my mother taught me and the faith in God instilled in me by a devout father remain as priceless treasures no depression can touch."

"No nation becomes great by becoming rich. Neither does a man find enduring satisfaction in life by owning something—only by becoming something. The most degrading poverty is that which results from killing the spirit that the body may be served."

"This depression has cost us some of the things we created but it has robbed us of none of our power to create. We may lose some beautiful things, but we have lost no love of the beautiful."

"It is a challenge, not a catastrophe. A generation that has conquered the air and sent giant planes circling the globe, which has plunged into the depths and disported on the ocean's floor, which has climbed above the clouds and lived in the stratosphere, is now faced with the challenge to rise above its dependence on mere things and seek an emancipation of the spirit of man."

"The last six months have been for many men a thrilling spiritual adventure through which they have discovered their real wealth. Berrett of dividends and profits they are discovering the sustaining powers of strong religious faith: the abiding value of courage, heroism, honor, clarity and trustworthiness."

"A financial crisis can wipe out profits and bring business to a standstill, but character is beyond its reach. It can rob us of all we have, but it cannot affect what we are."

"The investments we made in ambitious youth, hospitals, crippled children's camps, colleges and service institutions go on paying dividends. The deepest satisfactions of life—those which come from sharing and serving—remain secure."

"I am still rich because I am independently rich—none of my wealth depends upon business conditions or market reports."

Austrian Scientist

Invents New "Match"

Can Be Lighted Six Hundred Times

said Extensive Tests

Dr. Ferdinand Ringer, an Austrian

scientist, has invented a "match"

which is capable of being lighted six

hundred times. The device is no

larger than an ordinary match,

but is composed of special chemicals.

When the match is struck in the nor-

mal way, gases are released which

feed the flame and on reaching a cer-

tain temperature, the flame is ex-

tinguished by a release of nitrogen

gas. This process may be repeated

six hundred times, and the flame lasts

long enough to enable a cigarette to

be lighted. A larger match, intended

for domestic use, is capable of being

used two thousand times. The ma-

terial of which the device is composed

is non-poisonous, and if a lighted

match is dropped, contact with the

ground extinguishes the flame. The

invention is not yet in practical use.

A British firm of instrument mak-

ers has turned out a metal instru-

ment which can be used at the loca-

tion of an unburnt house to show

which rooms will be sunny and which

will not.

Dysentery Is a Very Dangerous. Bowel Complaint

Mrs. E. M. Ward, 627 Ave. E. South, Saskatoon, Sask., writes: "When my husband was in France he took dysentery, and was in hospital over a year. Ever since he came back he has had the attack three or four times a year. I cannot emphasize the good Dr. Fowler's Extract of Wild Strawberry has done for him. He generally takes a few doses and gets relief in a few hours."

"I cannot speak too highly of your excellent remedy, and you may be sure we are never without a bottle of it in the house."

John Bull Keeps Cool

Does Not See Way Out But Knows One Will Be Found

Despite all appeals and warnings Britons seem to retain their customary confidence that everything will turn out right in the end. This is the attitude which returning travellers report that they have encountered in all parts of England. The people do not know exactly how they are to be pulled out of their trouble, but are positive that the thing will somehow be done. Dr. Johnson's saying of a certain writer that "the founders' wall" might be applied to John Bull. He has, and he knows it, a way of bounding through. This is what keeps him calm when the visible facts might make others think that he ought to be truthfully agitated.—New York Times.

NEIGHBORS TALK

"I am employed in a theatre and I am a problem to make ends meet, as you have heard me say many times. I like to dress well but haven't very much to spend on clothes. To give the appearance of variety in my slender wardrobe I change the colour of a dress or stockings as soon as the change becomes faded. I always use Diamond Dyes for the work—using them as dyes for dresses and as dyes for stockings. I have always gotten such perfect results that our neighbors talk about the great number of new things I have."

"I learned about Diamond Dyes from our wardrobe mistress. She says she has tried all the dyes on the market but none do such splendid work as so easy to use as Diamond Dyes. I understand they are the world's most popular dyes—and they deserve to be."

L.P., Montreal.

Roads For Airplanes

Beam Like Searchlight Enables Pilots To Keep Their Bearings

In the near future aeroplanes may use roads or tracks just as motor cars and railway trains do today. The aeroplane roads will not be visible, but they will be there. They will consist of beams of unseen rays focused from one point to another just like the beam of a gigantic searchlight. An experiment with this new method of flying was made recently. At Manchester and Bristol transmitting stations are erected which send out wireless waves focused into a beam some four miles in width. The aeroplane contains receiving apparatus which indicates to the pilot any straying from his proper course. Starting from Bristol, an aeroplane can be certain of making its way direct to Manchester in the blackest darkness or the thickest fog. All that the pilot has to do is keep in the beam and fly straight on. It will no longer be possible for pilots to lose their bearings.

Distance Is Nothing

Fast Liner and Plane Service Bring Places Close Together

London, England, and Los Angeles, California, are now only a little more than six days apart via Montreal, and Buenos Aires, Argentina, 15 days, by combined ship and plane service recently inaugurated. The Canadian Pacific Steamships, in conjunction with Canadian Airways, Limited, and Canadian Colonial Airways, Limited, are the promoters of the service which enables incoming passengers to Quebec to make their air reservation aboard ship, and upon landing speed on to their destinations. Passengers arriving by the S.S. Empress of Britain, at Wolfe's Cove, Quebec, may leave St. Louis airport for St. Hubert airport at Montreal, and from there continue on west or south.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

Flags For All Occasions

In the matter of flags the Manitoba Free Press of Winnipeg is prepared for all emergencies. When the King and Queen of Siam recently visited the city the Siam flag was flown in their honour, and there was no trouble in obtaining it since it was on their own flag stock. "Our flag lockers," E. H. Macklin, president and general manager, says "contains full-sized flags of all the different nations of the world, and these we fly from our courtesy flag staff on the occasion of national holidays of the different nations."

Chinese Patient (on telephone).—Doctor, what time you fix teeth for me?

Dentist.—Two-thirty; all right? Chinese.—Yes, tooth hurt me all night, but what time you fix it?

W. N. U. 1909

Capitalist Farming

Should Be Avoided

Farm Operated By Owner Is the Safest Proposition

Will any bad results come from the lower standard of living which is being forced, for a time at least, on many families throughout the Dominion? Fears have been expressed that ownership of much of the land will pass into the hands of loan companies or private capitalists, leaving the worker in the position of a tenant. This matter was discussed at the convention of the Canadian Chamber of Commerce at Regina recently, following a memorandum from Winnipeg. The sponsors of the idea realized that a policy for improving the situation could only be formulated after a full survey of facts that will be available when the census figures for 1911 appear.

Marketing is recognized as a main factor in restoring prosperity to the farmer. Problems such as grading for home trade and export market requirements, transportation and the reduction of costs, inter-provincial control of disease, are essentially national in character and therefore lend themselves to investigation and control of the Dominion Government.

Advertising of farm products is another line of effort which must be national in scope in order to be effective. The Winnipeg Board of Trade points out that more money is spent in the Dominion in advertising toilet soap than in setting forth the merits of farm products.

These business men are pretty well agreed that the owner operated farm is the safest proposition and that it will be an evil day if capitalists take full control of the mortgage and bath to take over property knowing full well that the farmer himself is usually best fitted to dig his way out of the present depression.

May Create Traffic

Problem For Tibet

Dalai Lama Trying To Break Down Prejudice Against Motor Cars

Tibetan roads are usually associated with motorists' nightmares, and it is most interesting to learn that the Dalai Lama of Tibet, one of the most secluded religious leaders of the world, is to have a motor car. The average Tibetan looks upon a motor car as a "devil's wagon," but the Dalai Lama is confident that he will break down existing prejudices, so that soon Tibet may have a motor problem to cope with. The Dalai Lama does not propose to run any risks when he goes out in his motor car, and it has been arranged that parties of thirty coolies should accompany him along the mountain passes which he traverses. These gentlemen, it is said, carry the Dalai Lama's motor car on their heads along parts of the road which are not traversable!

Awful Asthma Attacks. Is there a member of your family who is in the power of this distressing trouble? No matter how you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy rests its reputation upon what it has done for others. It has a truly wonderful record, covering years and years of success in almost every part of this continent, and even beyond the seas.

Reject Freight Rate Appeal

Board of Railway Commissioners Hand Down Judgment In Coast Case

The Board of Railway Commissioners in a judgment handed down dismissed the application of the corporation of the City of Victoria together with the Panama Pacific Grain Terminal, Limited, for an export rate on grain by the Canadian Pacific Railways equal to that of the City of Vancouver.

The charge that the existing rates were discriminatory, upon which the applicant based its case, was unfounded, C. O. Fullerton, chief commissioner, stated in handing down his decision which was unanimously concurred with by the other two members of the board.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Extirminator.

Tar Sand Development The tar sand development at Fort McMurray is proceeding satisfactorily, according to Dr. S. C. Ellis, mining engineer of the Dominion Department of Mines, who passed through Edmonton, the other day, from Waterways, on a routine business trip to Ottawa. Dr. Ellis, who has been conducting the tar sand development at McMurray for the past year, will shortly return to Edmonton and Fort McMurray.

Small Boy (who has been scolded by his mother).—"If say, dad, we'd have had a fine time doing as we liked if you hadn't married mother."

MACDONALD'S Fine Cut Canada's Finest Cigarette Tobacco with ZIG-ZAG papers attached

The Gold Standard

Explanation As Given Below May Be Of Interest

The gold standard of exchange is normally in use by virtually every civilized nation of the world. It is predicated on the fact that paper money of a country's bank of issue is redeemable in gold on demand.

The suspension of gold payments in Great Britain means that the Bank of England is not bound now under an act of parliament of 1925, to buy gold bullion of stipulated standards for three pounds, 17 shillings, 10 pence per troy ounce. This, in effect, has resulted in the British pound sterling being equivalent normally to \$4.88%.

In the foreign exchange market recently, with the pound sterling available below its gold parity, in relation to other currencies, it has been profitable for banks to acquire sterling pounds in the market, convert them into gold at parity, and then convert the gold into other currencies by exporting the bars.

The pound sterling was pegged in New York during the war at \$4.75. It reached this artificial height by means of securities sale of dollars held by British citizens.

In 1919, it was decided to remove the support, and the sterling dropped until finally in 1919 it hit a new low of \$3.19.

The gold standard has been adopted by most every country since the war.

Douglas' Egyptian Liniment makes the finest blister known. Is valuable for stock. Leaves the hair roots in natural and healthy condition. Hair comes back. No scar remains.

Home-Grown Fruits

Demand In Winnipeg This Season Has Exceeded the Supply

The demand for home-grown small fruits in Winnipeg has been so brisk this year that dealers have not been able to meet all the requirements of patrons—this, despite the fact that growers within a radius of fifty miles of the city have made heavier shipments this year than at any time during the past five years.

Aid For Orientals Registration of Orientals for unemployment relief aid in the province of British Columbia is to be permitted, it was stated at the legislative building. The question was considered at a meeting of the executive council and it was agreed that the Orientals at work should share in unemployment aid.

Sitka Spruce

Canada's average annual cut of Sitka spruce is approximately 90,000,000 board feet, of which a portion is used in the manufacture of pulp and paper. The trees are prolific in British Columbia where they grow to a great height and size.

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cutmeats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh, delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

BELIEVE WHEAT BONUS NOT BEST FORM OF RELIEF

Calgary, Alberta.—The five-cent bonus on wheat is not the best form of relief to give all farmers according to the feeling among members of the United Farmers of Alberta. In a statement Norman F. Priestly, a vice-president of the U.F.A., said a number of farmers did not favour the five-cent bonus because "it assists those who have most to sell but does nothing for those whose crops have been hailed out or dried out."

He declared that the matter is receiving serious consideration by the various branches of the U.F.A., pointing out that a resolution from the Coalhills local branch asks the government to pay the farmer \$1 per acre for the 1930-31 crops as a temporary measure to assist the producers in unfortunate districts. He said the executive of the organization forwarded the resolution to Ottawa because it is unanimous in the belief that some other means than the bonus scheme is necessary to relieve the situation.

Mr. Priestly said a reply from Premier R. B. Bennett stated the Government would consider the situation. He pointed out that large areas in Saskatchewan are making better yields than in northern parts of Alberta where little wheat is raised, there is also an agitation for a bonus on oats, the vice-president continued. A resolution had been forwarded to Ottawa asking "that assistance be granted to the farmers by the way of freight absorption to include oats at the rate of 2 1/2 cents per bushel."

World Wheat Production

Estimated To Be 225,000 Bushels Less Than Last Year

Ottawa, Ont.—World wheat production in 1931, exclusive of Russia and China, is estimated to be 225,000,000 bushels less than in 1930, according to a statement issued by the Dominion Bureau of Statistics.

To the foregoing amount will have to be added any deficiency in Russian crop as compared to production in 1930. It is generally recognized that Soviet production this year is less than in 1930.

The decline in world wheat production in 1931 is due to smaller spring wheat crops in North America, drastic reductions in early estimates of the European crop, an estimated decrease of 87 million bushels in the Indian wheat crop and reduced prospects from the Argentine and Australia as a result of major reductions in acreage.

Present estimates indicate a European wheat crop slightly smaller than in 1930, or a reduction of from 60 to 65 million bushels under the out turn promised by early estimates.

Coal From China

Protest Landing Of Cargo Is Made At Halifax

Halifax, N.S.—A protest against the landing of Chinese coal at Halifax was telegraphed to Rt. Hon. R. B. Bennett, Prime Minister, by Hon. W. A. Black, M.P., and Felix P. Quinn, M.P., Federal Members for this constituency.

The protest followed the announcement that a Norwegian freighter was on the way from Port Fouon, French Indo-China, with a cargo of 4,000 tons of Chinese anthracite for sale in Nova Scotia and New Brunswick.

British Motion Pictures

Toronto, Ont.—Wider distribution in Canada of produced-in-Britain moving pictures is promised by W. L. Nathanson, recently returned from a two-months' tour of England. Mr. Nathanson was not prepared to announce he had completed his arrangement with British production companies, but he indicated the probability that his organization would effect a closer alliance with British producers.

Betrial In Kern Case

Moore Jaw, Sask.—Retrial of J. H. Kern, Sr., J. H. Kern, Jr., and D. K. Horne on charges of conspiracy to defraud was ordered in court by King's Bench when the jury brought in its final verdict of disagreement. The case will come up at the next jury sittings of King's Bench court in this city, next January.

Japan Withdraws Troops

Tokyo, Japan.—Japanese occupation of positions outside the south Manchurian railway zone has been halted, the foreign office announced, and withdrawal of troops is under way.

W. N. U. 1909

Plea For Independence

Mahatma Gandhi Voices Strong Demand For Self-Government

London, England.—Two hundred members of all parties in the House of Commons sat in the historic grand committee room at Westminster while Mahatma Gandhi, Hindu Nationalist delegate to the Indian Round Table Conference, voiced the strongest demand he has yet made for Indian independence.

"Squatting in his homespun cotton robes with a group of followers, Gandhi, in easy conversational tones and a gentle voice, declared he would be satisfied with nothing less than complete independence. Safeguards proposed in the draft constitution drawn up by the first conference—such as British control over Indian defence, foreign policy and finance—were unacceptable, he said. But India's complete independence would not exclude partnership with Britain on a basis of equality, he added.

"I will not accept the hush of independence, carrying with them safeguards and reservations," he said. "Rather would I declare myself a rebel . . . thousands of Nationalists have shed themselves of the fear of death."

Mr. Gandhi spoke for an hour and 45 minutes. Later, when questions were raised upon him by the members, his sense of humour won him sympathy. To one member who wanted to know what the word "mahatma" meant, Mr. Gandhi answered, "It means an insignificant person."

The chairman explained the term meant "the embodiment of a great soul."

Among Gandhi's audience were Miss Megan Lloyd George, James A. de Rothschild and two members of the old Labour Cabinet, Rt. Hon. J. R. Clynes, and Rt. Hon. Tom Shaw.

To Secure Evidence

Raid Conducted In Ontario On Motion Picture Concerns

Toronto, Ont.—Books and papers of seven motion picture companies named by Peter White, K.C., as being members of an illegal combine, were seized here in a raid conducted by a combined force of provincial and city police. The seizure followed an announcement by Hon. W. H. Price, Attorney-General of Ontario, that the province would prosecute several motion picture corporations in connection with the alleged combine.

Office of the Canadian Paramount Corporation, Famous Players Corporation, and the Bloom and Fine Theatres, Regal Film, Ltd., and Exhibitors Distributing Co., Ltd., were among those visited by police.

Seizure of the books and papers was merely carrying out necessary details in securing evidence in connection with the impending prosecution. Col. R. H. Green, who will conduct the prosecution for the province, explained. There were no objections raised to the seizures in any of the offices.

Prosecution is scheduled to commence October 5 at the fall criminal assizes, with several other provinces co-operating with Ontario in the action.

Indictments are at present in the course of preparation and counsel have been instructed to move at once to bring the cases before the assizes.

Both the provinces of Alberta and Saskatchewan will, it is understood, co-operate with Ontario in one set of prosecutions against the alleged combine.

Some 30 companies are affected by Ontario's action. All these were named by Commissioner White as parties to the combine.

Armaments Truce

London, England.—The British attitude toward the Italian proposal for an armaments truce is a favourable one, Rt. Hon. Stanley Baldwin, acting head of the National Government in Premier Ramsay MacDonald's cabinet, told the House of Commons.

Viscount Cecil of Chelwood, at Geneva, had been given instructions that he could agree to naval proposals subject to their acceptance by all other powers, Mr. Baldwin said.

Search For Cranner Continues

London, England.—Hope that Parker D. Cranner, United States airman, who was lost on a flight from Detroit to Copenhagen, remains alive lingers. The British Broadcasting Company has appealed to ships in North Sea waters and residents of the barren Orkney and Shetland Islands to keep a sharp watch for Cranner and his radio operator, Oliver Paquette, as they might be on an uninhabited island.

Hudson's Bay Chief In West

Winnipeg, Man.—With the object of obtaining first-hand knowledge about the business of the company, Major Patrick Ashley Cooper, new governor of the Hudson's Bay Company, is in Winnipeg conferring with local executives of the company.

Japan Shaken By Severe Earthquake

Houses Collapsed and Telegraph Lines Put Out Of Commission

Tokyo, Japan.—Mid-Japan has been shaken by another severe earthquake which caused 14 deaths and injuries to 60 in Saitama and Gumma prefectures alone.

In Saitama prefecture 150 houses collapsed, including the famous temple of Hikawa in Fumagali.

Landslides interrupted rail travel on various lines and 17 telegraph and telephone trunk lines were put out of commission, cutting off communication with Kobe, Dairen, Kumamoto and Hakodate.

Seismologists said the 'quake was the most severe this year.

WANT FURTHER FEDERAL AID FOR HIGHWAYS

Lucerne, Que.—The election of Hon. A. C. Stewart, Minister of Highways for Saskatchewan, as president of the Canadian Good Roads Association; lengthy discussion as to the part urban centres should bear in the maintenance of the country's highways; a review of the tourist traffic and its consequent "invariable crop" of Canadian scenery and pleasures, and a debate on level crossings, featured an active closing day of the Association's 18th annual two-day convention here.

Further Federal aid for the construction of highways and the elimination of level crossings was recommended in resolutions adopted by the association.

Taxation for commercial vehicles should be much higher, S. W. Fairweather, director of the Bureau of Economics of the Canadian National Railways stated. He sounded a warning against the country plunging too deeply into highways expenditures without making adequate plans for a return on the investment.

While the efforts of the Board of Railway Commissioners had improved level crossings conditions, a total of 341 railway crossing accidents had occurred in 1930 in Canada, and a total of 115 lives and 475 injured had resulted, Hon. Frank Oliver, advisory officer to the Board of Railway Commissioners, stated.

Subways and tunnels have been built where feasible and financially possible, and highways diversally to avoid crossing the right-of-way, he said. The Dominion still had, however, some 28,000 level crossings from coast to coast.

W. G. Robertson, manager of the Ontario Motor League, disputed a remark by Mr. Oliver who concluded that Ontario held the leadership in reckless driving. Two other provinces had a higher accident rate than had Ontario, Mr. Robertson said.

The number of cars in Ontario, its larger winter mileage, its many tourists and the province's 7,000 level crossings were among the factors contributing to Ontario's accident total.

Other officers elected were: Hon. W. R. Hibbs, Minister of Public Works, Newfoundland, first vice-president; Hon. R. W. Bruhn, Minister of Public Works, British Columbia, second vice-president; Hon. Leopold Macaulay, Minister of Highways, Ontario, third vice-president.

New directors elected were: Hon. W. Finlayson, Minister of Lands, Forest and Northern Development, Ontario; Hon. Leonard MacNeil, Minister of Highways, Prince Edward Island; Mr. Justice Fullerton, Chairman of the Board of Railway Commissioners; Charles M. Black, President of the Royal Automobile Club of Canada, and J. L. Stewart, General Manager, Canadian Automobile Chamber of Commerce.

Who Said Depression?

A strong indication that times after all, are not as bad as they might be was recently given at Pergus, Ont., when a train of 27 cars pulled out of the Canadian Pacific Railway Station, carrying products of Hearty Bros. Limited, manufacturers of electric washing machinery. With all the talk about "produced in Canada goods" and employment for Canadians, the event, which has become one of the town's regular events of recent years, was this year veiled with special interest and the employees of the plant and the townsfolk in general turned out to cheer the train as it sped away to distribute its freight from coast to coast throughout the Dominion.

SKY ROCKET

Travelling faster than man has ever done before is not fast enough for Flight Lieut. G. H. Stainforth (above), of the British Schneider Cup team, who recently averaged 386 miles an hour over a three kilometre course, and he will shortly attempt to establish a speed record which will stand for a number of years.

Would Ship Wheat To China

Proposal Made To Dispose Of Surplus Wheat On Credit

Victoria, B.C.—That Canada ship its surplus wheat to China and take a chance on receiving payment for it later, when China is in better financial shape, is the proposal advanced here by Hon. William Atkinson, Minister of Agriculture. Mr. Atkinson will discuss his plan with the Dominion Department of Agriculture shortly.

"We find in the world today," Mr. Atkinson said, in making public his proposal, "an appalling situation. The wheat producing nations, Canada particularly, are embarrassed by huge surpluses of wheat and yet in China, according to latest reports, millions will starve to death during the coming winter."

"Apart from the moral aspect of the question which is important, it seems to me that this is an absurd position from an economic standpoint. That is to say, we can not use our wheat and it is doing us no good by lying in elevators. If we could dispose of it, however—if we could get anything for it at all—we should clear the way for the sale of the next crop at least."

"The obvious thing, it seems to me, is to ship our surplus wheat to China and take China's note in return for it. We might be some time getting all our money, but we could not help being better off than we are now, with our grain choking the channels of business."

"Another important point, too, is that if we unloaded our wheat surplus in China now, we would create a wheat appetite among the Chinese. We would be building up a huge potential market for our grain."

Children Perish In Fire

Six Burned To Death When Farm House Destroyed

Hague, Sask.—Six of the nine children of Mr. and Mrs. John P. Hogue, of Hague, Sask., were burned to death when their farm home was destroyed by fire. Three of the children managed to escape from an upstairs window, but apparently the fire had overcome the others, who ranged from one year and ten months to 15 years of age.

The bodies of the six little victims were practically reduced to ashes. Four of the children had apparently huddled together as their remains were discovered in a heap while another was found at one side and the baby had been burned to death in his bed.

Who Said Depression?

A strong indication that times after all, are not as bad as they might be was recently given at Pergus, Ont., when a train of 27 cars pulled out of the Canadian Pacific Railway Station, carrying products of Hearty Bros. Limited, manufacturers of electric washing machinery. With all the talk about "produced in Canada goods" and employment for Canadians, the event, which has become one of the town's regular events of recent years, was this year veiled with special interest and the employees of the plant and the townsfolk in general turned out to cheer the train as it sped away to distribute its freight from coast to coast throughout the Dominion.

Many Returning To Britain

More Inward Bound To Old Country Than Going Out

London, England.—For the first time in history—except during the war—more people are returning to Great Britain from the Dominions than are emigrating to them, the "Overseas Settler," organ of the Overseas Settlement Committee, points out.

During the year ending June 1931, there was an outward balance of settlers from Britain to the Dominions of only 200, and the outgoing persons exceeded returning ones only in the case of New Zealand. Figures from all the other Dominions showed an inward balance.

In the same period the total British emigration to all parts of the Empire was 38,000 compared with 50,000 in the preceding year.

And many Britons who settled in the United States since the war are returning to Britain, the "Overseas Settler" added.

GENERAL SMUTS PICTURES A NEW ERA OF SCIENCE

London, England.—A tremendous ovation was accorded General Sir H. H. Jan. C. Smuts as he entered the Central Hall at Westminster to deliver his presidential address, opening the centenary meeting of the British Association for the Advancement of Science. General Smuts, distinguished South African soldier, statesman and scholar, was accompanied by several renowned past presidents.

The hall was filled to capacity and three overflow halls were also jammed as General Smuts furnished a "Scientific world picture of today" in which he set the keynote for one of the greatest gatherings of scientists the world has ever seen.

General Smuts saw a new era of science which scraps materialism and may surpass religion in ethical uplift. He showed how recent scientific discoveries point to evidence the material objects recognized by man's senses are in their origins as immaterial as thought or mind, and that both are part of a new order of things. He showed how recent scientific discoveries point to evidence the material objects recognized by man's senses are in their origins as immaterial as thought or mind, and that both are part of a new order of things.

"The new concept has made it possible to construe matter, mass and energy as but definite measurable conditions of the curvature of space time," General Smuts declared. "We may say that matter and energy will have disappeared as independent entities and will have become mere configurations in the space-time world."

"The space-time world, however novel, however shattering to common sense, is not in conflict with reason. Indeed, the space-time world is largely a discovery of mathematical reason and is an entirely rational world."

But in the new scientific drive General Smuts said, it is recognized the world consists not only of electrons and radiations, but also of souls and aspirations. Beauty and holiness are seen as much aspects of nature as energy and entropy. "We seem to have passed beyond the definitely physical world into a twilight where prophesies and metaphysics meet; where space-time does not exist; where strictly causal law in the old sense does not apply."

"It may fairly be said science is perhaps the clearest revelation of God to our age," General Smuts also told his great audience. "While religion, art, science and art still separate values they may not always remain such. A serious lag has already developed between our rapid scientific advance and our stationary ethical advance, a lag which has already found expression in the greatest tragedy in history."

"Science itself must help to close this dangerous gap in our civilization which threatens the disruption of our civilization and the decay of our species. Its final and perhaps most difficult task may be found just here. Science may be destined to become the most effective drive toward ethical values and in that way render its most priceless human service. In saying this I am going beyond the scope of science as at present understood."

"The ancient spiritual goods and heirlooms of our race need not be ruthlessly scrapped. The great values and ideals retain the undying glory and derive new interest and force from a cosmic setting."

People Live Longer

Kansas City, Mo.—W. B. Jones, Pittsburgh secretary-treasurer of the Association of American Chemical Superintendents, said here that the depression had struck chemists men as well as others. In times of depression, he declared, people eat and drink less, so live longer.

HOPE FOR PEACE IN PRESENT CRISIS IN MANCHURIA

Geneva, Switzerland.—Hope of peace in Manchuria was raised by two factors—an official announcement from Tokyo that Japanese troops had been withdrawn from Kirin, and United States Secretary of State Henry L. Stimson's assurance that the United States was working along parallel lines with the League of Nations council to bring about a settlement.

The Japanese announcement was regarded as evidence that Japan had decided to yield to demands that her troops be ordered out of Manchuria. It buoyed hope also that the Japanese would agree to an inquiry into her conflict with China by a mixed commission under league auspices.

Another official Japanese communication denied reports that troops had occupied Tsingtao and Chefoo and that Japanese sailors had been disembarked in China.

While technical difficulties still were considerable, league leaders felt that United States influence for conciliation was needed to bring a settlement.

Tokyo, Japan.—Disavowal of territorial ambitions in Manchuria, where Japanese troops occupy various points after clashing with Chinese garrisons, was announced by the Japanese cabinet following an extraordinary session.

The Government said its sole aim in taking possession of strategic points along the Japanese-owned South Manchurian Railway was to protect its subjects in carrying on their commercial enterprises.

Placing the blame upon the Chinese for the inception of hostilities, the Japanese Government asserted it had to act quickly to protect hundreds of thousands of Japanese residents in order to forestall an imminent disaster.

Ship Cattle To France

New Outlet For This Type Of Farm Product

Ottawa, Ont.—Shipments of Canadian cattle to France have been successfully accomplished, inaugurating a new outlet for this type of Canadian farm product.

A cablegram was received by the Department of Trade and Commerce, from Herculé Barre, Canadian Trade Commissioner in France, saying that the S.S. Minnetonka, which inaugurated this service docked at Havre, ten days after leaving Halifax. He reported that an excellent impression had been made on the French public when the S.S. Minnetonka docked and discharged her live cargo.

Motion pictures were taken by Canadian Government Motion Picture Bureau cameramen of the loading of the S.S. Minnetonka at Halifax. These pictures will be shown in motion pictures in Paris for publicity through the French agricultural press.

Plea For Fair Play

Senator Robertson Refers To Criticisms Of The Press

Vancouver, B.C.—An appeal to the press for fairness in dealing with the present economic situation and with the efforts of governments to meet it, was made by Senator Gideon Robertson, Dominion Minister of Labour, in an address before the Board of Trade here.

The Minister said he had a profound regard and admiration for the power of the press, but he sometimes wondered if its members appreciated the problems governments had to face, and that public opinion was made by what the public read. He was somewhat disappointed the senator said, to find members of the press bring up errors of the past, by whatever government they had been made and lay them at the door of the present administration.

May Have Winter, Train Service

The Pas, Man.—Churchill this year will be linked with the outside world by a train service throughout the winter. It was learned unofficially here. Once a week over the frozen tundra, a train will be hauled by the little bay line from here to the new bay port, engines will plow through the snow to bring mail and supplies to the few that will remain at Churchill throughout the winter.

Escapes From Ice

Point Barrow, Alaska.—The Hudson's Bay Company trading steamer, "Baychino," which for several days had been in danger of being crushed and beached, has escaped the clutches of the Arctic ice pack and headed southeast along the coast to safety.

Mr. and Mrs. Archibald McTeer, who have spent the past month at White Sulphur Springs, Va., and visiting in Washington, D.C., Philadelphia, Montreal and Toronto, have returned to Calgary.

Miss Madeleine Chardon will resume her piano classes on Monday next, October the 5th. Miss Chardon reached New York from Europe about a week ago on the big liner Aquatania and is expected to reach Blaimore on Saturday night.

James Haddad, formerly of Bellevue and Blaimore, now in business at Rockford, Illinois, was a visitor by motor to The Pass last week end, accompanied by Frank Thomas, of Chicago, and Pauline Thomas, of Rockford.

On the ground that it is interfering with tourist business, the city authorities of Sydney, N.S., are taking steps to curb the "Lone Wolf" activities of a former constable, who has been laying information and obtaining convictions under the M.V.A.

A new ferry, built at a cost of \$2,250,000, has been put into service between Cape Tormentine, New Brunswick, and Borden, Prince Edward Island. It will operate the year round across the Strait of Northumberland. The new ferry can accommodate sixteen railway cars, 750 persons and up to fifty motor cars.

ONE DOSE GERMAN REMEDY ENDS GAS

"I was sick and nervous with indigestion and stomach gas. One dose of Adlerika helped. I eat anything now and sleep good."—Henry Dodd.
"You can't get rid of indigestion or gas by just doctoring the stomach. For gas stays in the UPPER bowel. Adlerika reaches BOTH upper and lower bowel, washing out poisons which cause gas, nervousness and bad sleep. Get Adlerika today; by tomorrow you feel the wonderful effect of this German Doctor's remedy. Blaimore Pharmacy."
